

Profile Summary

Software Developer with hands-on experience in building mobile and web applications using Flutter, React Native, and Django. Recently completed a Bachelor's degree in Computer Science with a strong focus on mobile application development. Successfully delivered multiple academic and personal projects, including a mental health app and an auction platform. Proficient in backend integration with Firebase and Supabase, and experienced in Agile development environments. Recognized for leadership roles and a solid commitment to teamwork and problem-solving.

Work Experience

React Native Intern (Karbonion, Lahore, Pk)

April 2025 – June 2025

- Worked on real-time mobile features using React Native and Expo
- Collaborated with senior developers to implement UI components and optimize app performance.
- Integrated APIs and assisted in debugging across Android and iOS platforms.

Education

Bachelor of Science in Computer Science: University of Lahore, Lahore

Jan 2021 – Jan 2025

Intermediate (ICS): Unique Group of Colleges, Lahore

June 2018 – June 2020

Technical Skills

- **Front-End Development:** React, JavaScript, Flutter HTML, CSS
- **Back-End Development:** Django, SQL, NoSQL
- **Mobile Development:** React Native, Expo, Android Development, iOS Development
- **Tools:** Git/GitHub, Postman, Android Studio
- **Basics:** C++, Python, OOP, DSA

Projects

- **MindMate (FYP):** Created a mobile application aimed at improving mental health using Flutter. Integrated personalized AI-driven suggestions, mood tracking, virtual therapy sessions. Used Firebase for authentication, real-time data, and cloud storage. Achieved a 95% app stability rate through PyTest and reduced load time by 30%.
- **To-Do Application:** Built a weekly task manager app using React Native and Supabase. Integrated authentication, profile fetching, and visual progress tracking. Implemented a user-friendly UI for task creation, editing, and completion.
- **Auctions** Web-based auction platform using Django templates for listings and bids.
- **Encyclopedia** is a collaborative Wikipedia-like app for managing and viewing Markdown content.
